

Objective

This training session has been commissioned under the European Union's Programme for Employment and Social Solidarity (PROGRESS 2007-2013).

This programme is managed by the Directorate-General for Employment, Social Affairs and Equal Opportunities and by the Directorate-General for Justice of the European Commission. It was established to provide financial support for the implementation of the objectives of the European Union in the employment and social affairs area, as set out in the Social Agenda, and thereby contribute to the achievement of the Lisbon Strategy goals in these fields.

The seven-year Programme targets all stakeholders who can help shape the development of appropriate and effective employment and social legislation and policies, across the EU-27, EFTA-EEA and EU candidate and pre-candidate countries.

PROGRESS' mission is to strengthen the EU contribution in support of Member States' commitment. PROGRESS is instrumental in:

- providing analysis and policy advice on PROGRESS policy areas;
- monitoring and reporting on the implementation of EU legislation and policies in PROGRESS policy areas;
- promoting policy transfer, learning and support among Member States on EU objectives and priorities; and
- relaying the views of the stakeholders and society at large.

Contents

The new European Disability Strategy sets out the European Commission's work plan and priorities for the period 2010-20. It will ensure access to EU funding, raise public awareness about disability and fulfil the EU's commitment to the UN Convention on the Rights of Persons with Disabilities, which has entered into force for the European Union on 22 January 2011.

The Convention is an important tool for promoting the human rights of people with disabilities. The Convention elaborates and clarifies existing obligations, providing within a single text the accepted global legal standards on disability rights. It recognises that equality, dignity, autonomy, independence, accessibility and inclusion are key to ensuring that people with disabilities are able to enjoy the same human rights across the world. In doing so, certain paradigm shifts are introduced changing the status of people with disabilities in international human rights law.

The seminar will offer participants the opportunity to understand the key principles and concepts contained in the Convention. Furthermore, the seminar will also analyse the European legislation adopted on disability issues in areas related to the application of the UNCRPD. The seminar will analyse European legislation adopted on disability issues in the areas of public procurement and state aid.
